

## **"A Star is Hatched" Series Synopsis**

*Pingu* is a unique and quirky show conceived in 1986 by Swiss animators Otmar Gutman and Harald Muecke. The show follows the adventures of the sometimes mischievous and clumsy Pingu as he plays and interacts with his family and friends. Pingu lives in the Antarctic and does all the things you might do if you were a young penguin in the Antarctic, such as discover vast musical ice caves, play fish tennis, misplace your sister, find a treasure map and periodically enrage most of the local penguin population in one way or another. Pingu is a penguin of emotional extremes -- he's full of energy, life and love. Exceptionally expressive, Pingu's special 'Penguinese' language is fun and imaginative.
