

Bob the Builder's™ Can-Do Crew

Wendy

Wendy is Bob the Builder's reliable and tech-savvy business partner. At the office, she keeps the nuts and bolts of Bob's business in order with her excellent organizational skills. On a worksite, Wendy makes sure the Can-Do Crew has all the tools they need to get the job done and always wows the team with her building skills.

Scoop the Digger

Scoop the Digger is always there when there's a hole to be dug or dirt to be moved. He is the unspoken leader of Bob the Builder's fun-loving machine team. Always eager to make Bob proud, Scoops digs up big ideas that carry the team through to a job well done.

Muck the Dump Truck

Muck by name and muck by nature, Muck likes nothing more than getting thoroughly messy while carting loads of supplies. Muck digs, shifts and cleans soil and sometimes carries building supplies to and from the construction sites. Quick to act first and think later, Muck occasionally gets into trouble, but is always able to get back on track.

Lofty the Crane

Lofty is a tall mobile crane that is a little short on confidence and shows it with his timid speech and twitching motions. But with the encouragement of the machine team, he always rises to the occasion and holds up his end of the job by utilizing his three favorite tools: a grabber, an electro-magnet and a demolition ball.

Roley the Steamroller

When Bob needs a road smoothed or dirt flattened, he calls on Roley to pave the way. Always ready to “rock and roll”, Roley the Steamroller loves making up songs. No matter how fast the beat of his song, he likes to take life at a steady pace so he can enjoy the world around him.

Dizzy the Cement Mixer

The most excitable machine in the yard, Dizzy the Cement Mixer is always spinning with curiosity, questions and giggles. She’s eager to cement the job at hand and move onto things like playing soccer or listening to the tunes on her headphones.

Benny the Small Digger

Benny is lively, confident, enthusiastic and always likes to learn new things. He is a whiz at getting the job done quickly and he is very conscientious. He is a specialist robo-digger and he looks up to Scoop, the youngest member of the team. Benny has given Scoop the nickname “Big Banana.”

Scrambler the Off-Road Vehicle

When Bob won the competition to design and build a whole new town from the ground up, he also won Scrambler, the all-terrain, four wheel drive vehicle! Streetwise and enthusiastic, he loves to go off-roading.

Sumsy

Sumsy is a young fork-lift truck. Sumsy is keen on numbers and sees the world as a big opportunity to count. She makes all sorts of numerical connections that others don’t – counting wheels, trees, bricks, anything!

Packer

Packer is the newest member of the Can-Do Crew. He’s a very determined delivery-truck that is full of enthusiasm and always does his best, even if it gets him into tricky situations. Packer always keeps his cool under pressure.
