

# RAINBOW magic

## Meet the Jewel Fairies

Each of the **Jewel Fairies** is in charge of teaching magic to all the other fairies in Fairyland. Without their magic skills, fairies would never be able to perform their fairy functions.

**India the Moonstone Fairy** teaches dream magic to all the other fairies, so they can be sure that sleep is filled with sweet dreams instead of scary nightmares.

**Scarlett the Garnet Fairy** teaches growing and shrinking magic to all the other fairies, so they can expand and contract to any size they like.

**Emily the Emerald Fairy** teaches seeing magic to all the other fairies, so they can see far into the future or just around the corner.

**Chloe the Topaz Fairy** teaches changing and transforming magic to the fairies of Fairyland, so that they have the skills to change objects from one thing to another.

**Amy the Amethyst Fairy** teaches appearing and disappearing magic to all the other fairies, so they can create real magic – making things appear and disappear.

**Sophie the Sapphire Fairy** teaches wishing magic to the fairies of Fairyland, so that they can grant special wishes to children everywhere.

**Lucy the Diamond Fairy** teaches flying magic, just about the most important skill for any fairy to have. If a fairy can't fly, she's just a girl with wings!
