

RAINBOW magic

Meet the Weather Fairies

The **Weather Fairies** are responsible for all the different weather in Fairyland. It's up to the Weather Fairies to wave the proper weather feather in just the right pattern to control the day's weather conditions.

Crystal the Snow Fairy creates winter wonderlands and white Christmases. Clear crystal snowflakes burst from her silver-tipped wand every time she waves it.

Abigail the Breeze Fairy makes it easy to fly a kite when she directs the wind to blow in great gusts. Her emerald green wand has a shining golden tip that showers little bursts of swirling golden leaves.

Pearl the Cloud Fairy determines whether the clouds in the sky will be light and fluffy or grey and stormy. Little pink and white sunset clouds drift and swirl out of her pretty pink wand.

Goldie the Sunshine Fairy works hard on summer afternoons keeping the sun shining bright. Golden sunbeams shoot out with every wave of her sparkly golden wand.

Evie the Mist Fairy can make the early morning mist as thick as pea soup. With every wave of her sparkly, silver-tipped wand, wisps of shimmering mist float by.

Storm the Lightning Fairy controls the rumble of thunder and the flash of lightning during a storm. Her purple wand shoots out little crackling lightning bolts with every wave.

Hayley the Rain Fairy is in charge of all rain showers, from a heavy downpour to a light drizzle. Little droplets of blue and violet scatter from her silver wand whenever she changes the weather.
